

MagVenture presents: magpro XP

eXtended Performance

eXtra Power

eXpanded Possibilities

- Choose one of 3 pulse widths
- Theta Burst/fMRI
- Advanced burst sequencing
- Clustered pulses at extremely high frequencies (pps)
- 5 x more power than standard MagPro
- ExG pod optimized to avoid artefacts

You probably already know the extraordinary high quality of MagPro® TMS stimulators and coils from MagVenture.

Now we are about to introduce a brand new MagPro stimulator to the market. The magpro XP will be the to date most powerful magnetic stimulator available.

See the magpro XP

at the
**6th International
Conference on Transcranial
Brain Stimulation**
Göttingen, Germany,
September 7-10, 2016
