**About:** **e-TNS migraine device prescription according to LiMA**

---

To whom it may concern,

We are pleased to send you this prescription letter for the above-mentioned patient.

- **Diagnosis:** After a thorough medical examination, the patient has been diagnosed with migraines.
- **Indication:** The Cefaly is an External Trigeminal Nerve Stimulation device (**e-TNS**), **indicated for the long-term prophylaxis and/or treatment of migraine attacks**. Existing CE certification (no. 0459) is a necessary but also sufficient condition for SwissMedic authorization.
- **Benefit:** After receiving instructions, the patient was able to successfully complete a 120-day therapeutic trial with the Cefaly e-TNS device.
- **Efficiency:** After a successful 120-day trial phase, we were able to establish, using a headache diary, that use of the Cefaly device had reduced the patient's complaints (number of migraine attacks, prophylactic and acute medication intake) by >20%.
- **Assumption of costs:** in the list of means and devices (LiMA), the use of external trigeminal neuromodulation (**e-TNS**) **indicated for long-term prophylaxis and/or treatment of migraine attacks is reimbursed as follows:**
  - **09.02.03.00.1** Purchase of Cefaly e-TNS device CHF 379.88
  - **09.02.03.00.2** Rental of Cefaly e-TNS device for 120 days CHF 26.40 (0.22 CHF/day)
  - **09.02.03.01.1** Return of Cefaly e-TNS device 62.85
  - **09.02.03.02.1** Standard electrode for Cefaly e-TNS device per piece CHF 8.33
  - **09.02.03.03.1** Hypoallergenic electrode for Cefaly e-TNS device per piece CHF 10.33

Thank you for your prompt processing.
