

# Easy, reliable Patient Management of your TMS practice

- Manage your patient data safely
- Treat your patient as usual and log the data
- Track your treatments
- Generate reports for reimbursement

# Full circle on your TMS practice

# Why you need Patient Management for your practice

## Easy, reliable, available

- Anytime, anywhere access from all platforms such as laptops and tablets
- Oversee multiple sites
- Real-time information always at hand
- User-friendly, intuitive interface specifically developed for TMS practices
- Easy upgrade from current MagVenture TMS Therapy system

## Safe data storage

- Cloud-based web hosting solution
- Automatic back-up of data
- HIPAA compliant
- Developed in accordance with the FDA Cybersecurity Guidelines
- European General Data Protection Regulation Compliant
- Only you have access to your patient data

## Less paper, more patients

- Cut down administration time
- Store all patient data in one place
- Ensure that only prescribed protocols are used
- Generate patient reports
- Enable online dialogue between physician and TMS operator, in real-time
- Ensure a smooth and efficient management of your TMS practice

## How to get started

The MagVita 360® solution consists of very few elements that can easily be integrated in your current MagVenture TMS Therapy system or delivered fully installed in a new one.

All you need are these components:

A 360 gateway attached to the rear panel of the stimulator

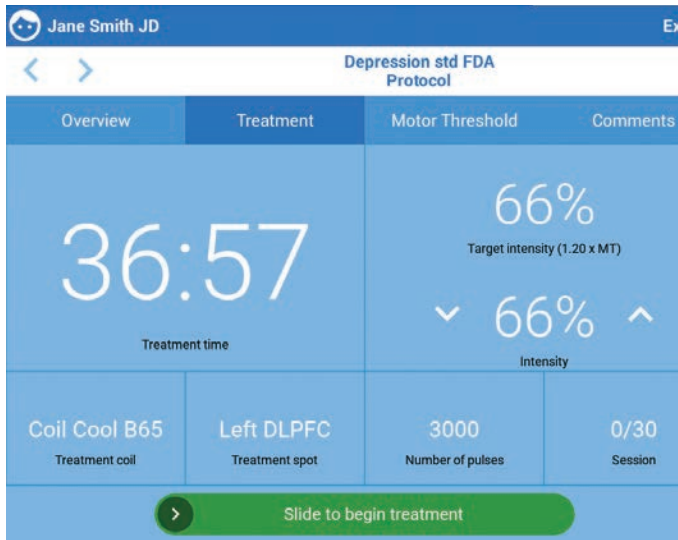

Monitor/touch screen mounted on the trolley

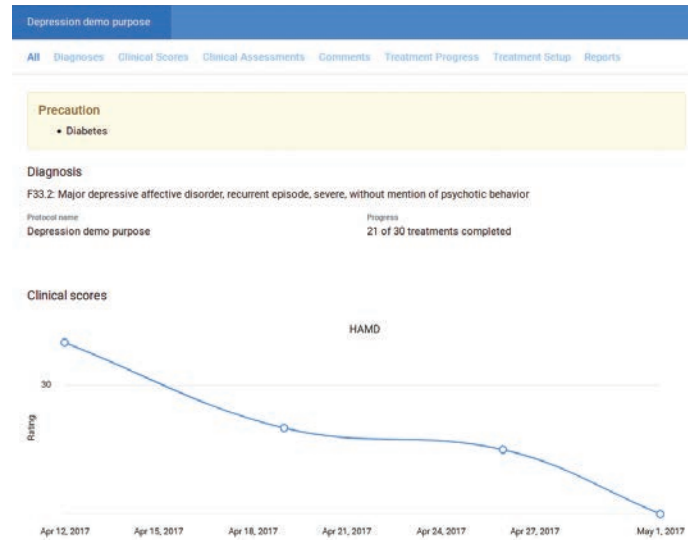

A pc/laptop (not supplied) with internet connection

The Patient Management system may also be purchased as a stand-alone software solution which is also cloud-based but relies on manual data entry.

The touchscreen provides many features such as preloaded treatment procedures to choose from.

Your patient's treatment progress is always at hand from a pc or laptop.

## Get more information

Contact us for more information if you consider offering TMS depression treatment to your patients. You can also find more information about the MagVenture TMS Therapy on [www.magventure.com](http://www.magventure.com)  
Our US audience may also consult with [www.magvitatms.com](http://www.magvitatms.com)

## \*Indication for use
